To Do

- As a player I need to make my move within a certain period of time in order to not automatically surrender.
- As a user I need to choose between not seat or online multiplayer to play either not seat or online multiplayer.
- As a user I need to be able to play multiple games at the same time with the same or different other users.
- As a user I need to see the highscore of the game to be able to know my highscore.
- As a user I need to choose which game mode I want to play to play different modes of the game.
- As a player I need to view or otherwise be informed of what has happened since my last turn in order to know what has happened since my last turn.
- As a user I need to chat with other players both privately and in the group channel for playing a game.

Doing

- As a player I need to see if all other players have lost to terminate the game.
- As a game I need to remove the turn of a player who has lost or surrendered.
- As a game I need to make the units of a player who have surrendered able to defend but otherwise neutral to all the non-surrendered provinces.
- As a player I need to be able to surrender to no longer be part of a game.
- In game statistics
- As a user I need to see and choose to join another users' tables to join an online multiplayer game.
- As a user I need to notify the server that I want other players to join my game to start an online multiplayer game.
- As a system I need to save the state of
- Add a card...

Done

- As a player I need to choose a province to do different things with.
- As a player I need to move units from one province to another to build said province.
- As a player I need to choose how many units to attack with.
- As a player I need to be able to attack another province to try to conquer it.
- As a game I need to give various numbers to determine the loss of units to each province in an attack.
- As a player I need to choose if I want to attack (again) to move forward in my turn.
- As a player I need to place a specified number of units on a province to see my bonus units each round.
- As a game I need to know if a player has conquered a province in this turn in
